CALL → QUOTE FROM HOME → DEPOSIT

From the first ring to the deposit

1

THE CALL (CREW)

Your AI voice agent picks up. NEW

A homeowner calls while you're out on a job and can't pick up. The agent answers basic questions, captures the lead (even if the call drops), and takes a message.

You: You get an email about each call.

2

THEY START FROM HOME (OR YOUR SITE)

Open the quote on their phone.

Your embed or share link, with your logo and colors. They pick a style (with pictures) and height.

Shop side: The jobs list shows draft → quoted → signed.

3

FOOTAGE WITHOUT THE TAPE

Trace the run on a satellite map, or type the feet.

They draw the fence line and the footage calculates itself. Multiple runs on one job, or typed linear feet.

Shop side: Your pricebook and BOM build the materials: posts, rails, panels, concrete, waste, gates, tear-out.

4

THEY SEE THE PRICE. YOU KEEP THE MARGIN.

Clear total for them. Cost check for you.

Sold-by-the-foot total for the homeowner (Good / Better / Best if you use it).

5

SIGN AND DEPOSIT ON THE SAME LINK

No print. No chase.

They e-sign and pay the deposit once you connect your own Stripe, PayPal, or Square (setup at fenceai.app/access/).

Still drive when it matters: Odd lots and tear-outs can still get a look from you.

Give homeowners an instant fence estimate on your website.

Start 14-day trial → fenceai.app · Main (229) 466-5045 · Secondary (352) 290-8357

Shop $49/mo or $470/yr (2 seats) · Crew $149/mo or $1,490/yr (5 seats + AI voice agent; monthly minute limit). Voice agent is paid Crew only, not in the 14-day trial.
